

# KROGEN ♦ EXPRESS

## Krogen Express – Tiare

Make:	Krogen Express	Boat Name:	Tiare
Length:	52 ft	Hull Material:	Fiberglass
Price:	\$ 949,999	Draft:	4 ft
Year:	2007	Number of Engines:	2
Condition:	Used	Fuel Type:	Diesel
Location:	Naples, FL, United States	Number:	5789745

### Tiare

---

This Flag Blue Krogen Express 52' is available for immediate delivery. Beautifully appointed and equipped with a full complement of Raymarine electronics along with several desirable upgrades, she's ready for cruising to the destination of your dreams. For a detailed listing of the specifications and equipment on the Krogen Express, a virtual tour, and additional photography and artwork, please visit our web site.

## Measurements

---

LOA:	57 ft 6 in	Displacement:	43000 lb
LWL:	51 ft 4 in		
Beam:	15 ft 11 in	Fuel Tanks Capacity:	700 gal
Max Draft:	4 ft		
Trim Tabs:	Yes	Fresh Water Tanks Capacity:	370 gal
		Holding Tank Capacity:	90 gal
		Number of Cabins:	2
		Number of Heads:	2

## Propulsion

---

### Engine #1

Engine Make:	Yanmar	Hours:	1222
Engine Model:	6LY3-ETP	Power:	480 hp
Primary Engines:	Inboard	Propeller Type:	4 Blade
		Rope Cutter:	Yes

### Engine #2

Engine Make:	Yanmar	Hours:	1222
Engine Model:	6LY3-ETP	Power:	480 hp
Primary Engines:	Inboard	Propeller Type:	4 Blade

## Features

---

### Electronics

- Depthsounder
- Wind Speed and Direction
- TV Set
- Plotter
- Autopilot
- Compass
- GPS
- VHF
- Radar
- Repeater(s)
- Navigation Center
- DVD Player
- Radio
- CD Player
- Cockpit Speakers

## Inside Equipment

- Stern Thruster
- Washing Machine
- Oven
- Air Conditioning
- Heating
- Refrigerator
- Battery Charger
- Bow Thruster
- Electric Bilge Pump
- Microwave Oven
- Electric Head
- Hot Water
- Sea Water Pump

## Electrical Equipment

- Shore Power Inlet
- Inverter
- Generator - 12k, 982 hrs

## Outside Equipment/Extras

- Teak Cockpit
- Davit(s)
- Cockpit Cushions
- Swimming Ladder
- Cockpit Shower
- Tender
- Cockpit Table

## Covers

- Bimini Top - Soft

## Dimensions

---

Max Bridge Clearance: 22'6"

## Engines

---

Total Power: 960

Cruising Speed: 15-18 kts

Max Speed: 20+ kts

## Hull Design

---

Designed by James Krogen, the KE52 combines classic, timeless style with exceptional seakeeping and efficiency. Her plumb stem, raised bow, and broad beam forward allow her to slice through the waves with ease while providing surprising space in her accommodations. Her low profile allows her to get under bridges as low as 16' and with a draft of just 4', she'll take you places most 50 footers won't. Her semi-displacement hull delivers trawler efficiency at displacement speeds with true cruise capabilities in the mid-to-upper teens. And her generous keel provides stability and protection for her twin 26x24.5 propellers.

## Krogen Livability

---

Boarding a Krogen Express couldn't be easier with a large transom door and wide boarding gates on either side of the spacious, covered cockpit. Ample storage for lines, fenders, cleaning supplies, and more is provided by the cavernous lazarette below. Entering the saloon through double, watertight aluminum doors, her owners are treated to an inviting cherry wood interior. Along with her sumptuous joinery, old world craftsmanship is obvious with the quality of her appointments and overall fit and finish. Legendary Krogen livability is evidenced by the large side windows and generous headroom along with the integral galley-up design. Inviting chairs to port and an L-settee to starboard are perfectly situated for enjoying the built-in Samsung LCD TV and Bose surround sound home theater system. To port is generous additional underdeck storage and a built-in bookcase featuring fiddled shelves and still more lockers.

## Saloon Settee

---

Located to starboard, the comfortable L-shaped settee has storage beneath and a nice end table forward. The hi-lo table has leaves that fold out for expanded seating capacity and can be moved outside for dining al fresco. The settee is covered in stunning, denim-colored Ultrasuede while curtains and neutral silhouette blinds provide privacy and protection from the sun.

## Galley

---

The 52's gourmet galley is located up where her chef can always be part of the action. She's well equipped for meal preparation with a 3-burner, Force 10 propane range, 14 cu. ft. refrigerator, GE microwave oven, and deep Elkay sink with pullout sprayer faucet. Neutral Corian countertops are elegant and easy to maintain and will complement any decor, and the raised section is ideal for serving the crew. A traditional round port light provides ventilation while abundant storage ensures a good home can be found for all provisions. Beneath the starboard side bookcase, the U-line ice maker frees up space in the ice box and ensures drinks will be well chilled.

## Pilothouse Helm

---

The centerline helm console in the raised pilothouse is equipped with a full complement of navigational electronics, all within easy reach of the fine Ultraleather Stidd helm chair. Precise Teleflex Morse controls allow smooth control of the 480 Yanmars while her rudders are guided by a custom, handcrafted cherry helm wheel. The navigational electronics were updated in 2015 and now include a Raymarine E127 color radar-chartplotter with hybrid touch that is integrated with the new EV-400 auto pilot and includes a terrific wireless remote control. The radar antenna is a 48" open array Super Digital Color unit. Video signals from engine room and stern cameras along with the standard satellite TV system are also displayed on the E127. The owner also has installed an i40 wind meter. A dedicated depth display adds redundancy while a Uniden VHF radio ensures good communication when required. Backup chartplotter, GPS, data logging capabilities are provided by the color Garmin 152 mounted overhead. A remote Yacht Controller allows for total control of the yacht while away from the helm and provides easy docking from the cockpit or bow. Two large drawers and a wide, lighted table to starboard allow for easy storage and use of paper charts. A Side-Power 11 hp bow thruster and 8.4 hp stern thruster assures comfortable close quarters handling. Controls for the dual trumpet Kahlenberg horns, intermittent Exalto wiper/washer system, Maxwell windlass, and Lenco trim tabs are all

close at hand. Music is provided by an amplified Pioneer AM/FM/CD sound system which is easily reached from the helm chair.

## **Pilothouse Settee**

---

The pilothouse watch berth, covered in UltraLeather, is elevated for optimal forward visibility, long enough for naps underway, and converts to a 3/4 double berth to accommodate overnight guests. A table provides a convenient work surface and the wall mounted lamp to starboard makes this an ideal location to retire with a good book. Above the settee, a color coordinated half hull model showcases her elegant lines and makes for interesting conversation. Beneath the settee are several small lockers for equipment storage. High quality, weather tight Dutch doors lead directly to the wide side decks, while stairs to the port side of the settee provide safe and easy access to the flybridge. Textilene screens for all pilothouse windows provide sun protection in addition to the Vcool window film for UV and heat reduction.

## **Guest Stateroom**

---

An L-settee that converts to a double berth highlights the flexible nature of the guest stateroom, while the pullman berth provides additional sleeping capacity. Located inboard is a large desk with drawers. A deep hanging locker and huge drawers under the settee provide ample storage. Two port lights and a screened hatch overhead make the GSR light and airy. A full head is located across the companionway.

## **Master Stateroom**

---

A true queen island master is the centerpiece of the master stateroom. With over 7' of headroom and light provided by 4 ports and a large deck hatch, the MSR feels surprisingly generous for a motoryacht this size. The standard queen mattress does not require any custom linens and you can easily access the head of the bed to make it. Hanging lockers on both sides, 6 deep drawers under the berth, and a dresser with drawers and shelved storage ensure her owners have ample room for their belongings. A Samsung flat TV and a Clarion stereo system provide entertainment. A power lift raises the berth to reveal cavernous storage beneath along with a dedicated battery bank for the windlass and bow thruster. The ensuite head features a molded fiberglass shower stall with a seat, Vacuflush head, and Corian countertops.

## **Flybridge & Boat Deck**

---

While her pilothouse is fully capable, most Krogen Express owners prefer operating their vessels up top where they can better experience her cruising capabilities. Conversations are easy, as little engine noise makes its way up here, leaving only the soothing sounds of sea breezes and ocean waves with which to compete. A flybridge bimini protects the captain sitting in the comfortable, raised centerline Stidd helm chair, where wind and waves are all that can be heard. Navigation support includes an updated Raymarine E125 hybrid touch color radar-chartplotter, a second autopilot control head, and a large Danforth compass. Controls for the bow and stern thrusters, trim tabs, windlass, and wired stereo remote are close at hand. The 4' open radar array and satellite TV dome are mounted on an attractive aluminum spar-style mast that can be lowered when needed. The L-settee with Ultra Leather cushions provides ample seating for crew and guests and contains storage beneath for the extensive canvas package. Situated aft of the settee, the open boat deck will easily accommodate a set of folding teak

chairs and serves as access to the 11' AB DLX luxury tender. This is the ideal place to enjoy that cup of morning coffee or catch a beautiful evening sunset. The dinghy, with a raised console and seating for 4, is powered by a 25 hp 4-stroke Yamaha outboard and launched with the fully hydraulic Steelhead davit. Place the included folding Dahon bike in the tender and you are ready for a shore excursion.

## **Engine Room & Systems**

---

An exceptional stand up engine room houses a pair of 480 hp electronic Yanmar diesels which can be easily accessed all around. The engines are fired by dedicated 8D starting batteries and drive through matched Kanzaki transmissions. Vibration is kept to a minimum with the standard Aqua Drive systems. The 12 kw Northern Lights genset sits on the centerline and has its own 4D battery, isolated from the others to ensure she starts every time. A Reverso fluid changing system is connected to both engines, both transmissions, and the genset to improve serviceability, while a fuel transfer pump makes equalizing the tanks a breeze. As with the water tanks, diesel fuel levels can be easily accessed with convenient sight glasses. An automatic fire suppression system, freshwater washdown, and storage for tools and supplies above and alongside the water tanks are additional features welcomed by her owners. Located in a separate spacious bilge area, away from the heat of the engine room, are the three CruiseAir reverse-cycle A/C systems. In the same compartment is a 20 gallon stainless steel hot water heater which is supplemented with heat from the main engines. Beneath the salon, the 4000 watt Mastervolt inverter/charger, triple Mastervolt 8D house battery bank, and 75' shorepower cord Cablemaster drum storage are also easily accessed.
